

# 2021 CAPDM Distinguished Member of the Year

## Julie Carriere

### VP Quality Assurance & Regulatory Affairs, Accuristix

Since her initial involvement with CAPDM approximately four years ago, Julie Carriere's contributions to CAPDM are numerous. Julie serves on four Advisory Committees, including the Ambient Transportation, Returns, and the Regulatory Committee for which she serves as Interim Chair. Committed to continual learning herself and for others, Julie designed and delivered the Regulatory section of the 2020 and 2021 Supply Chain Boot Camps.

Of significant impact, Julie chaired the Vault Strategy Task Force, which in late 2021 successfully achieved modernized interpretation of regulations covering narcotic vaults in 3PL facilities. Formerly, costly client-specific vaults were required. The new interpretation enables the storage of narcotics in common vaults governed by warehouse management systems, with significant cost and time savings for the sub-sector.
