

A WORKING SUMMIT

Resilient · Connected · Vital

MAY 3-6, 2026

HOTEL MONTELEONE, NEW ORLEANS, LOUISIANA

SPEAKER SPOTLIGHT

Matthias Dalkner, Vice President of Healthcare Solutions, KNAPP AG

Rise to New Dimensions: Innovations in Warehouse Robotics and AI

This presentation explores how KNAPP is advancing the next generation of warehouse automation through robotics and artificial intelligence. Matthias Dalkner will highlight today's cutting-edge robotic picking technologies—combining AI-driven vision, intelligent item handling, and adaptive motion planning—while also offering a forward-looking assessment of the potential (and limits) of humanoid robotics in future warehouse environments. The session further introduces KNAPP's key AI applications, including intelligent slotting, demand forecasting, and AI-powered vision and manipulation. Participants will gain a compact yet comprehensive view of how robotics and AI are transforming warehouse operations and where the next wave of innovation is headed.
